To Whom It May Concern:

I have known Caleb Eby, of Old World Construction, for approximately four years. He has, so far, moved two barns for me. One of these barns measured 50' x 90', which he dismantled in Harrisburg, moved and reassembled it at my property in Clear Spring. The other barn has been dismantled and is currently in storage waiting to be erected.

Caleb and his crew have always displayed top quality workmanship and dependability. His experience and decision making abilities in this type of business are invaluable. He places top priority on prearranged schedules and agreed upon time tables for the work in progress.

I have always been very pleased with his work ethics and personal satisfaction he strives to achieve with each job he performs. I would not hesitate to recommend Caleb Eby for any job in this particular line of work.

Sincerely,

Gene S. Albert, Jr.
