To Whom It May Concern:

I have had the privilege of working with Caleb Eby of Old World Construction tearing down and removing a 30,000 sq. ft. grain mill on the 2nd block of Littlestown, PA. in the fall of 2008.

All work was done in a professional and safe manner; work was also completed in the time frame we had agreed on.

There was a lot of good lumber in the building and Caleb saved the lumber for future use.

Caleb and his employees all work together to make sure everything was done safely and did not endanger anyone or thing close to the job site.

I would highly recommend Old World Construction for any job.

Sincerely
Joseph M. Lee
President
